

WORLD GIVING INDEX 2021

FOCUS ON INDIA

KEY FINDINGS

- Globally, more people reported that they helped a stranger in 2020 (54.9%) than we have ever recorded before in the CAF World Giving Index.
- More people donated money in 2020 than had done so in the last five years (31.2%).
- Levels of volunteering in 2020 remained relatively unaffected at the global level.
- Indonesia remains in first place, followed by Kenya. Four African nations now sit in the Top 10 – three of them (Nigeria, Ghana and Uganda) for the first time.
- Most of the western countries which are usually in the Top 10 have fallen far down the rankings – the exceptions are Australia and New Zealand.
- Scores for India rapidly improved between 2017 and 2019, and this improvement was maintained during 2020.
- India is now in the Top 20 most generous countries in the world, at #14. This is up from the 10-year global rank of #82 that we published in our last report (the special 10th edition published in 2019).
- The improvement in India is seen across all the age groups and amongst both men and women.
